### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: the claims are allowable over the closest prior art to JP 2002-015417 (machine translation has been made of record on the attached notice of references cited). The rejection of the claims in view of Ohsawa et al. has been overcome by applicant's submission of a certified translation of the foreign priority document. Thus, the claim for foreign priority has been perfected.

JP 2002-015417 discloses a structure having all of the features of independent claims 1-2, 6, and 15, except for the required (110) orientation of the bcc layer and the (100) or (200) orientation of the hcp intermediate layer. The prior art fails to teach or suggest a motivation to modify JP 2002-015417 to achieve the claimed crystal orientations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
